

# Codecell Event Report

## KJSCE Practice Round - 1

**Date:** 8th-9th September, 2018

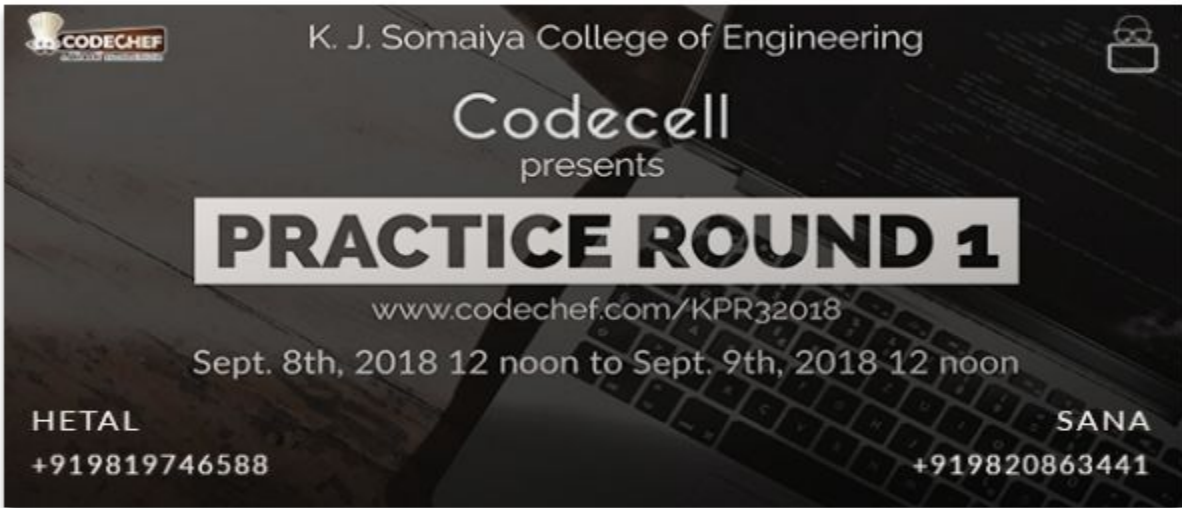

**Time:** 12:00 noon, 8th - 12:00 noon, 9th

**Venue:** online - closed (for those that were invited with the link) codechef contest

**Total Participants:** Approx. 100 students

This contest was held in order to give students an idea as to how the competitive coding platform works(for first timers) and what kind of questions might be there in interview rounds for placement.

The banner features the CodeChef logo, the text 'K. J. Somaiya College of Engineering', 'Codecell presents', and 'PRACTICE ROUND 1'. It also includes the website 'www.codechef.com/KPR32018', the dates 'Sept. 8th, 2018 12 noon to Sept. 9th, 2018 12 noon', and contact information for HETAL (+919819746588) and SANA (+919820863441).

◆ Name	◆ Code	▼ Successful Submissions	◆ Accuracy
<a href="#">FIRST</a>	FRT	52	<a href="#">13.86</a>
<a href="#">DESORT</a>	DSORT	28	<a href="#">13</a>
<a href="#">CLOCK</a>	CLOCK	27	<a href="#">16.07</a>
<a href="#">MALICIOUS-MUSIC</a>	MALMU	13	<a href="#">36.11</a>
<a href="#">PHOTOGEN</a>	PHTGEN	5	<a href="#">7.78</a>

All questions in the [contest](#) were created, tested and updated, and given editorials for by members of KJSCE Codecell.

Before the contest started, the members of the council, with great care and after ensuring attention to detail, uploaded all the questions they had selected for the contest.

The contest started at 12:00 noon on the 8th of September.

The main aim of the contest was to give the first year students a taste of competitive coding and to give all other students a place to practice their competitive coding skills.

The questions were set such that newbies would be able to understand and attempt them, and they would provide to be somewhat a challenge to practiced coders too.

The questions are: [FIRST](#), [DESORT](#), [CLOCK](#), [MALICIOUS-MUSIC](#), [PHOTOGEN](#).

After the contest was thrown open to the masses, the Codecell team monitored the discussion forums and other places of contact to solve the doubts of students and to make any changes to the questions or add hints if they felt the need arose.

Once the contest was done, they uploaded the editorials to help the students that had been unable to solve the question, understand where they went wrong and what they had missed.

The rank-list was created. The contest became an ex-contest on codechef, making it available for practice for all those who had missed the contest.

After a gruelling 2 days, the council members announced the winners.

The feedback received for the contest problems and the way it was conducted was very positive, making the contest a huge success.
